Hide sold-out products checklist

Hide products at zero stock and bring them back on restock, without deleting anything.

- ☐ **Track quantity is on for every product you want hidden**
  Products > Inventory > Edit variants
- ☐ **Decide: page stays live (A) or product fully hidden (B)**
  Do these pages get search, ad or email traffic?
- ☐ **A: add Inventory stock is greater than 0**
  Each automated collection > conditions
- ☐ **A: set products to match all conditions**
  Match any condition breaks it
- ☐ **A: override the /collections/all Catalog page**
  Theme editor, with your own automated collection
- ☐ **B: install Publish and unpublish products based on inventory level**
  Shopify Flow app > Templates
- ☐ **Test: 0 stock hides it, 1 or more brings it back**
  One test product

Watch out for

- Pre-order products sitting at 0 stock.
- Manual collections: the stock condition is not available.
- Discontinued products: archive instead of hiding forever.
- Unreliable stock counts: fix tracking first.
