Google AI Mode checkout checklist

Keep your products in Google AI Mode and Gemini, but send shoppers to your own store to pay.

- ☐ **Check eligibility and which channels offer direct checkout**
  Sales channels > Agentic
- ☐ **Confirm you have access**
  Store owner, or staff with App development or App and sales channel permission for Agentic
- ☐ **Turn off Allow Shopify to manage for me**
  Sales channels > Agentic
- ☐ **Leave Shopify Catalog access on**
  Off stops sharing product data with third-party AI channels and turns off direct checkout
- ☐ **Turn off Direct checkout for Google AI Mode and Gemini**
  Sales channels > Agentic > Google AI Mode and Gemini
- ☐ **Decide on Auto enroll new storefronts**
  Off means you approve each new channel
- ☐ **Click Save**
  Sales channels > Agentic

Watch out for

- Turning Allow Shopify to manage for me back on reactivates direct checkout.
- Agentic plan stores start with direct checkout off.
- Shop has no Catalog access switch in Agentic settings.
- Unlisted hides a product from Google search too.
