AXIOPRAX FIXES · D19 · INVENTORY & REORDERS

Black Friday reorder checklist

Find the products that run out before your supplier can restock, and reorder them in time.

- ☐ **Open the inventory reports**
  Analytics > Reports > Category: Inventory
- ☐ **Read Days of inventory remaining for each best seller**
  Inventory remaining per product
- ☐ **Write each supplier's lead time in days**
  Your own sheet, next to the report
- ☐ **Flag variants with fewer days left than lead time**
  Days left lower than lead time = reorder
- ☐ **Start with A-grade variants**
  ABC product analysis
- ☐ **Check which have sold the largest share of stock**
  Products by sell-through rate
- ☐ **Raise purchase orders**
  Products > Purchase orders > Create purchase order

Remember

- The report uses the last 28 days, so a sale spike sells faster.
- N/A means no recent sales: estimate by hand.
- On hand includes committed stock since 1 October 2026.
- Black Friday 2026 is 27 November.
